## Software Release Note Form

Document Type: Release Note

**\*\*NO\*\***. The setup question will be:  
**\*\*Do you want the system to automatically issue Staff Number to new Staff?\*\***

3. If i switch setup to **\*\*YES\*\***, two fields should display below. The first field should be titled **\*\*PREFIX\*\*** while the second field should be titled **\*\*LAST STAFF NUMBER\*\***

4. I should be able to enter both texts and numbers in the **\*\*PREFIX\*\*** field while the **\*\*LAST STAFF NUMBER\*\*** field should only allow me to enter numbers

5. If my setup is **\*\*YES\*\***, my prefix is **\*\*LOREM\*\***, and my Last staff number is **\*\*10\*\***. I expect that when i go to staff creation page, the staff number field should display **\*\*LOREM11\*\*** and be greyed out such that i'm not able to edit it. The system should assume that the number entered in the last staff number field has been assigned to the last staff created on the corporate and as such, continue counting sequentially from there.

6. I expect that when i attempt to create another staff, the staff number should automatically increase by 1 and go on in a sequential pattern for every staff created

7. If my setup is switched to NO, the staff number field in staff creation page should be available for entry. If i decide to switch back to YES at any point in time, i should see my previous entry in the PREFIX and LAST STAFF NUMBER fields and i should be able to edit both fields

5	FLEX- PAYROLL	<p><b>HM Flex: Payroll Setup: Notification message after adding an allowance should be changed from 'setup successfully saved' to 'Allowance successfully added'</b></p> <p>Notification message after adding an allowance should be changed from 'setup successfully saved' to <b>***'Allowance successfully added'***</b></p> <p>![image](/uploads/c35d6225f7fdfa8320d84a9bd3f3baa4/image.png)****</p>	<p>1) Drop the jar in this path  /home/jbossadmin/  CLOUD_HOME/  scripts</p> <p>2) Restart the updated service</p>	<p>1)  Humanmanag  er-service</p>	<p><a href="http://192.168.19.33:18006/">http://192.168.19.33:18006/</a></p>	Y
6	PERFORMANCE	<p><b>Ability to upload final calibrated score for staff enmasse- FE/BE/DB</b></p> <p>Prerequisites:</p> <p>1. A user should have setup in his performance settings item 3 if the company uses calibration. If set as Yes, the calibration menu should be available but if set as No, The calibration menu should not be available.</p> <p>Note: Whenever a calibration score exists, it is the final performance score of the employee in the organization.</p> <p>This feature is to request the ability to upload final performance scores for previous performance periods</p>	<p>1) Drop the jar in this path  /home/jbossadmin/  CLOUD_HOME/  scripts</p> <p>2) Restart the updated service</p>	<p>1)  Humanmanag  er-service</p> <p>2) database</p>	<p><a href="http://192.168.19.33:18006/">http://192.168.19.33:18006/</a></p>	Y

## Software Release Note Form

Document Type: Release Note

completed outside HM7.0. This is same as Calibration scoring / upload.

As an HR Performance Admin User who has met the condition of calibration set as yes in prerequisite above:

1. I should see a menu called Calibration under Appraisal Process section
  2. When i click on Calibration menu, I should see Employee Calibration page
  3. Each section on the employee performance comparison (i.e. the perspective and appraiser comment section) should be collapsible
  4. On the same screen, I should see a tab to upload final performance calibration scores en mass (Mass Entry)
- \*\*Based on step 4\*\***
5. When i click on Mass Entry, i should see an upload template and ability to download a sample file format that can be re-uploaded back to the system
  6. With the upload template i should be able to upload staff number of employees being calibrated
  7. With the upload template, i should be able to view final calibration score and its sequence code for reference. Final calibration score option will automatically pick descriptions in Appraisal Summary Grade and give each description a sequence code that can be used in the upload file

## Software Release Note Form

Document Type: Release Note

8. I should be able to enter the performance period ID of the calibration process

9. I should be able to enter calibration comments for each employee on the calibration upload file. This comments should allow upto 250 words without commas.

10. If approval is setup for calibration, uploaded file should follow the approval process (default or custom as the case may be) before going into the system.

**\*\*Updated Requirements\*\***

11. The preview page for the calibration upload should include columns for Staff No, Calibration score performance period ID and Comments with status for failed or successful records and the submit button.

12. The calibration comments should be stored in the database for further use in reports and approvals flows permanently.

This final performance calibration score is computed based on the appraisal summary scoring description in the organization.

10	PERFORMANCE	<p><b>Unable to create a new appraisal period after closing the old one</b></p> <p>Creating a new appraisal period after closing the old one throws up an error. See image below for clarity:</p> <p>![image](/uploads/7da9f687a32404f9430e66b599244053/image.png)</p> <p>Find log below: [appraisallog.txt](/uploads/8204d658b70a1284af8fecfaa6c0d69c/appraisallog.txt)</p>	<p>Drop the jar in this path /home/jbossadmin/ CLOUD_HOME/ scripts</p> <p>2) Restart the updated service</p>	1) Human manager service	<a href="http://192.168.19.33:18006/">http://192.168.19.33:18006/</a>	Y
11	FLEX	<p><b>Validation of Date of Birth against Employment Date Entry</b></p> <p>As a user creating a new staff, i expect that the gap between a staff date of birth and employment date should not be lesser than 12 years. E.g. If a staff year of birth is 2009, the employment year to be allowed for the staff should not be earlier than 2021. Because any year earlier than 2021 would mean that the staff gained employment at age 11 which is against Nigerian Labor Law.</p>	<p>1)Drop the jar in this path /home/jbossadmin/ CLOUD_HOME/ scripts</p> <p>2) Restart the updated service</p>	1) Human manager-client service	<a href="http://192.168.19.33:18006/">http://192.168.19.33:18006/</a>	Y
12	FLEX	<p><b>Place Holder in Text Fields Should be Cleared When Clicked On</b></p> <p>As a user, i expect that when i click on text fields to make my entries, the place holder text in the fields should be cleared such that i should not have to delete before making my entries. The following are the affected fields:</p> <p>1. Fields in Allowances and Deductions Setup Modal ![image](/uploads/0e28288fda434deca7f96b9d505a885a/image.png)</p> <p>2. Date of birth field in staff record creation page ![image](/uploads/04a45e065d68b77b67a5ec051304bbe3/image.png)</p>	<p>1)Drop the jar in this path /home/jbossadmin/ CLOUD_HOME/ scripts</p> <p>2) Restart the updated service</p>	1) Human manager client service	<a href="http://192.168.19.33:18006/">http://192.168.19.33:18006/</a>	Y

## Software Release Note Form

Document Type: Release Note

<p>1. My current KYC level: Which will have the details of my current daily cumulative transaction limit and maximum balance</p> <p>2. Upgrade to KYC Level 2 card with details of daily cumulative transaction limit and maximum balance: When i click on Get Started on this card, I should be able to fill a form that includes;</p> <ul style="list-style-type: none"><li>- A free text field to enter my BVN (Integers only)</li><li>- A dropdown field to select identification document</li><li>- A free text field to enter document number</li><li>- A field to enter user's DOB</li><li>- A component to upload document (Identification Document)</li><li>- A cancel button and a proceed button: When i click on cancel, i should be taken back to wallet landing page while proceed button should give me a success message.</li></ul> <p>3. Upgrade to KYC Level 3 card with details of daily cumulative transaction limit and maximum balance: When i click on Get Started on this card, I should be able to fill a form that includes;</p> <ul style="list-style-type: none"><li>- A field to select utility bill; This field will be a dropdown field</li><li>- A field to Enter Document Number</li><li>- A date field to select date of issue; A label below this field should tell user document should not be older than 3 months</li></ul>				
--	--	--	--	--

## Software Release Note Form

Document Type: Release Note

- A component to upload document (Utility Bill)

- A cancel button and a proceed button: When i click on cancel, i should be taken back to wallet landing page while proceed button should give me a success message.

**\*\*Important to take note of:\*\***

- As a user, if i'm on Level 1 KYC, both Level 1 and Level 3 color should be greyed out or have a white background and Get started button should be removed for them. At this stage only Level 2 KYC should be active with Get started button to proceed with registration.

- As a user, if i'm on Level 2 KYC, both Level 1 and Level 2 color should be greyed out or have a white background and Get started button should be removed for them. At this stage only Level 3 KYC should be active with Get started button to proceed with registration.

- As a user, if i'm on KYC Level 3, the Upgrade KYC Level card in wallet landing page should be totally removed. However, there should be an indication that i'm currently on KYC level 3.

Please see page 47 of figma design below

summary and a place to enter my 4 digit pin to confirm transaction  
8. When user clicks on confirm payment, a success message should be displayed in a modal. Details on the modal will also include; Amount of transaction, name of distribution company/Beneficiary, Meter token which can be copied right from the modal with a copy function and a done button to close the modal and take user back to wallet landing page.

If i click on **\*\*Pay TV Subscription\*\***, i should be able to do the following:

1. I should be taken to Pay TV Subscription Screen
2. Ability to select TV Service Provider: This field will be a dropdown field listing TV Service Providers available
3. Ability to enter Smart Card Number: This will be a free text field. Smart Card Number will be validated and Smart Card name will be displayed below the field if validation passes but if validation fails, an **\*\*Error: Validation Failed\*\*** message should be returned.
4. Ability to Renew current Subscription Plan: This will be a switch button which can be switched to a YES/NO
  - If i switch renew button to YES, a modal should pop stating the terms of use of renew subscription feature and buttons to either cancel or proceed.
  - If i click on cancel, i should be taken back to Pay TV Subscription screen
  - If i click on Proceed, the application should populate the rest of the fields on the transaction page with the details of the current subscription on my Smart Card. Please note that the populated fields should not be editable
5. Ability to select service: This should be a dropdown field which should allow me to select the service of my choice

## Software Release Note Form

Document Type: Release Note

		<p>- Please note that the Amount field is automatically populated with amount of service selected above. This amount should not be editable. It will always change based on selected service</p> <p>6. Ability to select number of months: This will be a dropdown field which should allow me to choose months from a list.</p> <p>7. Ability to click on Pay: This will be a call to action button in which when clicked should pop up a modal with summary of my transactions and a place to enter my PIN to confirm my payment.</p> <p>_Please note that on the transaction page, a list of recent TV subscription payments made will be displayed at the bottom of the page for viewing purpose._</p> <p>See from Page 35 in figma link below</p> <p><a href="https://www.figma.com/proto/1jL8k3x9lAn97n4lO4zYuF/Mini-Payroll-App?page-id=217%3A64766&amp;node-id=3265%3A74355&amp;viewport=241%2C48%2C0.06&amp;scaling=scale-down&amp;starting-point-node-id=216%3A77925">https://www.figma.com/proto/1jL8k3x9lAn97n4lO4zYuF/Mini-Payroll-App?page-id=217%3A64766&amp;node-id=3265%3A74355&amp;viewport=241%2C48%2C0.06&amp;scaling=scale-down&amp;starting-point-node-id=216%3A77925</a></p>
